

Zoo-phonics® SCHOOL

Teaching the world to read

June Holiday Programmes

Suitable for
Nursery
Age 3 -4

Our fun-filled holiday learning experiences help stimulate language development and expand creativity of young minds. Enrich your child's knowledge, vocabulary and language this holiday as we explore two themes that are fascinating to young children.

Circus Funtasia

Enter the fascinating world of clowns, trapeze artistes, performing animals, popcorn and cotton candy! For 5 days, your children will peek behind the curtains of our 'big top' and discover all about the amazing circus world. They will have lots of fun doing face painting, dramatization, creative craft and even fun with cookery!

Animal Habitats

For all the little animal lovers out there, our "Animal Habitats" programme will provide the answers to questions about animals' homes. We explore the Grassland, Desert, Polar Region, Rainforest and Sea & Ocean habitats. Learn about the different characteristics of these habitats and the creatures that live in them. We will captivate our young learners with exciting stories about animals that live in these habitats and also work on fun craft activities. Other activities include dramatization, hands-on projects, creative movement, cookery and more.
